### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Applicant's election of the claims drawn to the method in the reply filed on 5 October 2001 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This application is in condition for allowance except for the presence of claims 11-14 to the device, non-elected without traverse. Accordingly, claims 11-14 have been cancelled.

### *Allowable Subject Matter*

2. Claims 1, 4, 6, and 8 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The claims have been amended to include the limitation that the second property semiconductor film (e.g. amorphous silicon) is irradiated for crystallization at atmospheric pressure, a point argued by Applicant (at p. 5 of the Remarks filed 2 August 2004) to be critical to better alignment of the substrate during crystallization as supported by the instant specification at p. 30, lines 4-22. Accordingly, in the context of the claim, the prior art does not teach or suggest this feature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erik Kielin whose telephone number is 571-272-1693. The examiner can normally be reached on 9:00 - 19:30.
